

1 June 1983

Ted
Ross 7 (keep)MEMORANDUM FOR THE RECORD

SUBJECT: Briefing for Director, Information Security Oversight
Office on Marshall Library Visit

1. On 1 June 1983, the undersigned briefed the Director, ISOO on the Marshall Library, the Friedman and Carter collections and the circumstances surrounding the NSA visit to the Library in April.

2. We discussed the various queries received from Congress and elsewhere. He was shown Congressman English's letter with enclosed questions and our draft response which has been held up pending preparation by OGC of a letter to the SSCI. The Director, ISOO said he thought the responses to Congressman English's questions were reasonable, complete, and apparently well based and that we should have sent the letter without waiting for the response to the SSCI.

3. The ISOO was fully satisfied with the briefing and expressed his appreciation to DIRNSA for providing same.

M. J. Levin
